National Framework for Aquatics in Scotland

Delivering quality environments through:

- Learn to Swim
- **Clubs**
- Performance & Performance Development

Scottish
Swimming

National Framework for Aquatics in Scotland

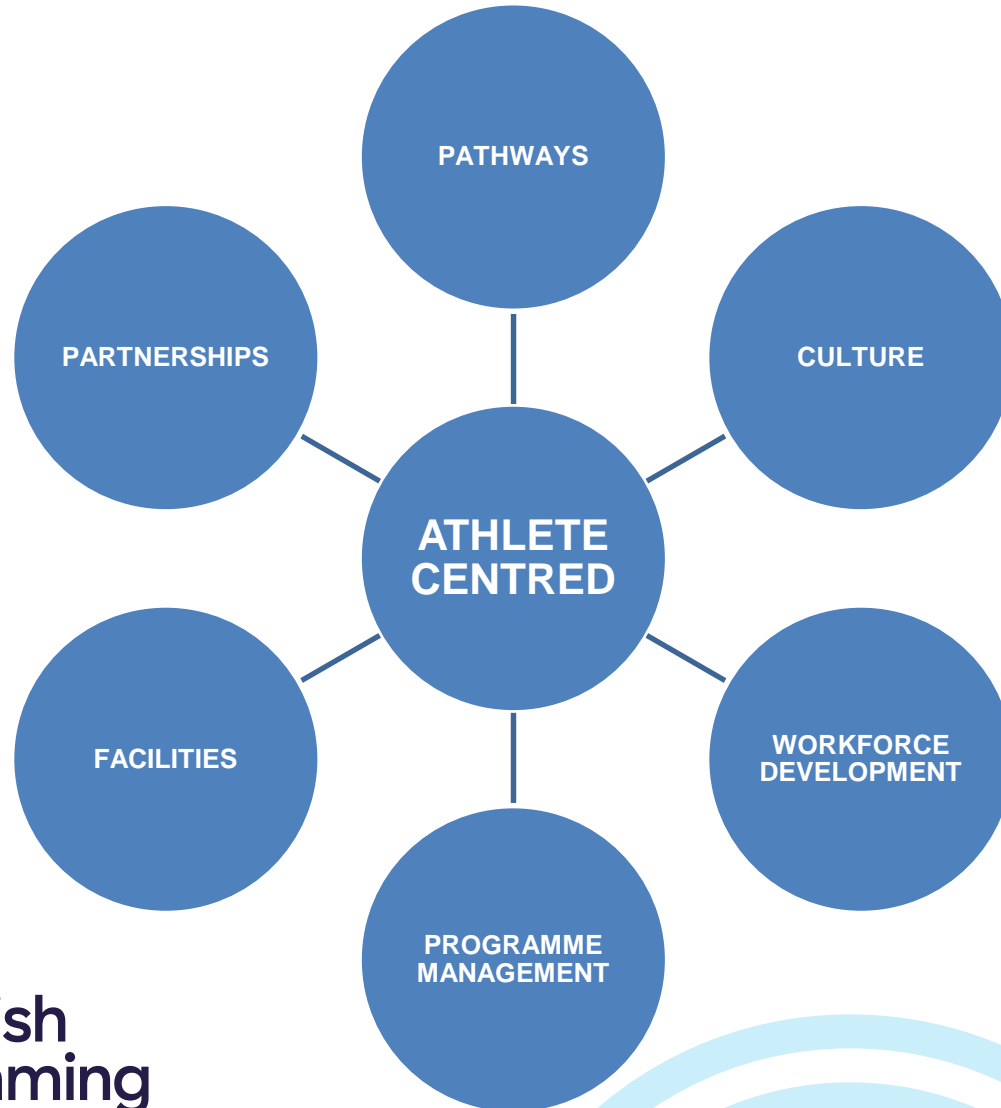

Aims:

- To provide **guiding principles** across the 6 key areas identified as fundamental in creating quality environments
- To provide **support & resources** to enable the delivery of quality environments
- To provide **good practice** examples

Delivering Quality Environments

**Scottish
Swimming**

National Framework for Aquatics in Scotland (CLUB)

- What we know so far - what clubs require across the 6 areas
- RAG Rate Resources & Support across the 6 areas
- Placed around the room – 10 mins
 - Red Don't have & need to develop
 - Amber Have but needs further developed
 - Green Have and is working well

Swimming

Things to Consider

- What will the framework look like?
- Where would clubs find it?
- Can clubs access what they require?
- How can clubs use it?
- Where does club accreditation sit?
- Will there be a cost to the framework?
- How we implement – our approach
- How would we measure the impact?
